To Whom It May Concern,

Letter of Recommendation

It is my pleasure to recommend James Donkor for future opportunities in back-end development. During his 3-month internship at Whitebox Media, James served as a Back-End Developer in the IT Department, consistently demonstrating technical proficiency, problem-solving skills, and a strong work ethic.

James played a vital role in developing and maintaining server-side functionality, optimizing database systems, and collaborating with front-end developers to ensure seamless integration. His ability to learn quickly and deliver high-quality work under tight deadlines made him a valuable member of our team.

I am confident in James Donkor's skills and potential to excel in any future endeavors. He has my highest recommendation, and I am happy to provide further details if required.
